

Dear Potential Member,

The Idaho Milk Processors would like to encourage you to join our association. As a company who is supplying goods and services to the dairy industry in Idaho you are eligible for membership. We have one annual meeting during the month of August which is held in Sun Valley Idaho. The annual meeting is attended by nearly 400 people; with members and associate members all attending meetings and activities. You can check out our web site at www.impa.us to give you a feel for our organization. The Idaho Milk Processors Association is active in the milk processing industry with contacts with lawmakers and administrators of the government programs that are developed and implemented. You will be able to present ideas to the membership that you feel are important to the dairy industry in Idaho. The Idaho Milk Processors offers opportunities to participate in meetings and to develop relationships with top professionals in the dairy industry.

If you have questions or concerns please contact

Jay Astle
Membership Chair
Idaho Milk Processors
